However, you may use remote access technologies, such as the Remote Desktop features in Microsoft Windows or NetMeeting, to access and use your licensed copy of the Software, provided that only the primary user of the device hosting the remote desktop session accesses and uses the Software with a remote access device. These remote desktop rights do not permit you to use the Software on both the device hosting the remote desktop session and the access device at the same time. You agree that Actify has the right to audit to verify that the number of PCs running the Software corresponds with the number of licenses paid for. You agree that you will not modify, reverse engineer, decompile or disassemble any portion of the Software.
2. Reservation of rights and ownership. Actify reserves all rights not expressly granted to you in this EULA. The Software is protected by copyright and other intellectual property laws and treaties.
